

Litter and Illegal Dumping

Let's keep Glanbrook beautiful. I will collaborate with residents, local organizations, school boards and city staff to bring a combined and consistent team effort to reducing litter and illegal dumping on our roadsides and greenspace.

As your councillor, I will personally support proactive and reactive community clean-up efforts. I will request city-serviced trash cans for underserved parks and rail trail egress areas. I will increase signage to discourage illegal dumping along rural roads. I will actively support community-led 'Litter Clean-Up' days.

I will encourage citizens to be vigilant if they witness illegal dumping and report it. I will work with City staff to divert resources to problem areas and bring quick and responsive action if litter accumulates or illegal dumping occurs.
